

AI agents + senior engineers. Not one or the other.

Our AI agents handle the volume — routine tickets, bug fixes, feature additions, maintenance. Our senior engineers review every pull request, handle complex architecture, and step in when a task requires human judgment. You get the speed and cost of AI with the quality guarantee of experienced developers.

HOW IT ACTUALLY WORKS

Think of our AI agents as tireless junior developers. They work 24/7, they're fast, and they get smarter with every ticket. But just like any junior dev, they need **senior oversight**. Every PR is reviewed by a real engineer before it touches your codebase. Complex tickets — deep architecture changes, nuanced UI work, tricky integrations — get escalated to our human engineering team automatically.

COST COMPARISON — AI DEV AGENT VS. ALTERNATIVES

JUNIOR DEVELOPER

~~\$5,000–8,000/mo~~

MID-LEVEL DEVELOPER

~~\$8,000–15,000/mo~~

DEV AGENCY

~~\$15,000–30,000/mo~~

GAZELLIA AGENT + ENGINEER

\$3,000–10,000/mo

AI DEVELOPMENT AGENT — CHOOSE YOUR PLAN

Launchpad

\$3,000

per month

AI agent handles your tickets autonomously. Internal QA before every PR. Best for teams that have their own senior devs to review and merge.

- AI agent picks up tickets 24/7
- Internal QA before delivery
- Monday.com / Jira integration
- Up to 30 tickets/month
- Automated PR creation
- Self-improving knowledge base
- Slack notifications
- Your team reviews & merges

Professional

RECOMMENDED

\$5,500

per month

Everything in Launchpad, plus a **senior Gazellia engineer reviews every PR** before it reaches your repo. Complex tickets that exceed agent capability are escalated and handled by our engineering team.

- Everything in Launchpad
- **Complex ticket escalation**
- Up to 50 tickets/month
- Multi-repo support
- **Senior engineer PR review**
- Architecture guidance
- 10 hours/mo senior dev time
- Bi-weekly strategy call

Enterprise

\$8,500 – \$12,000
per month

Full AI + human engineering team. Agent handles volume, senior engineers handle complexity. For active product development where quality, speed, and architecture all matter.

- Everything in Professional
- **25-40 hrs/mo senior dev time**
- Unlimited agent tickets
- Weekly strategy call
- **Dedicated senior engineer**
- **Complex UI/UX implementation**
- Architecture & design reviews
- Priority support & SLA

What agents handle vs. what humans handle

Transparency is part of the product. Here's exactly what our AI agents are great at, and where our senior engineers step in.

Agents Excel At

- Bug fixes & patches
- Feature additions to existing patterns
- API endpoint creation
- Database queries & migrations
- Unit & integration tests
- Refactoring & code cleanup
- Documentation updates
- Dependency upgrades
- WordPress/CMS maintenance
- Config & environment changes

Engineers Step In For

- Complex UI/UX implementation
- Visual design work (canvas, image editing)
- Architecture decisions & system design
- Performance-critical optimization
- Security-sensitive code
- Third-party API debugging
- Legacy system migrations
- Client-facing demos & walkthroughs
- PR review on all agent output
- Escalated tickets beyond agent scope

THE ESCALATION FLOW

Agent attempts ticket → If it can't complete it or confidence is low, it flags it for human escalation → Senior engineer picks it up, completes the work, and the agent **learns from the solution** for next time. Over time, fewer tickets need escalation.

OTHER SERVICES

AI Marketing Automation

\$2,000 – \$5,000

per month

AI marketing agent monitors ad campaigns, generates creative, updates landing pages, and optimizes spend — with human approval before anything goes live. Ad spend is separate.

- Meta / Google Ads integration
- A/B testing automation
- Human approval workflows
- Performance dashboards
- AI-generated creative & copy
- Landing page management
- Budget optimization
- Monthly strategy review

Custom Software Development

\$100 – \$150

per hour / or project-based

Full-stack web and mobile applications. React, React Native, Node.js, TypeScript, Python, AWS. Project-based or retainer. AI-accelerated delivery means faster turnaround than traditional agencies.

- Web apps (React, Next.js)
- Mobile apps (React Native / Expo)
- API design & development
- AWS infrastructure setup
- Database architecture
- CI/CD pipeline config
- Third-party integrations
- Project-based pricing available

ADD-ON AGENTS

Infrastructure Monitoring Agent

\$1,000 – \$2,500/mo

24/7 cloud monitoring, cost anomaly detection, performance alerts, auto-remediation, and monthly optimization reports.

Data Intelligence Agent

\$2,500 – \$5,000/mo

Multi-source data ingestion, pattern detection, record enrichment, and actionable insight surfacing from your existing databases.

QA & Testing Agent

\$1,500 – \$3,000/mo

Automated test generation, regression suite management, flaky test identification, and pre-deployment validation in your CI/CD pipeline.

Managed Maintenance

\$500 – \$1,500/mo

Ongoing bug fixes, security patches, dependency updates, and performance optimization for existing applications.

Cloud Architecture & DevOps

\$125 – \$175/hr

AWS infrastructure design, cost optimization, Terraform, CI/CD pipelines, multi-account strategies.

AI Strategy Consulting

\$150 – \$200/hr

Evaluate AI opportunities, technology selection, architecture planning, build vs. buy analysis.

WHITE-LABEL (AGENCIES)

Custom

Terms & Notes

- All services are month-to-month unless annual commitment is selected for discount
- No setup fees — agent onboarding and configuration is included
- Custom software: 50% deposit, 50% on delivery (milestone-based for larger projects)
- Hourly services billed weekly with detailed time tracking
- AWS infrastructure costs passed through at cost — no markup
- Ad spend for marketing services is separate, managed in your own ad accounts
- **All code is your intellectual property** — full repo access from day one
- Senior engineer hours beyond plan allocation billed at \$125/hr
- Escalated tickets count against senior engineer hours, not agent ticket count
- 14-day cancellation notice for monthly services
